

WARRIOR LEGACY
FOUNDATION

I WILL NEVER FORGET THAT I AM AN AMERICAN,
FIGHTING FOR FREEDOM, RESPONSIBLE FOR MY ACTIONS,
AND DEDICATED TO THE PRINCIPLES WHICH MADE MY COUNTRY FREE.

Warrior Legacy Foundation is a non-profit organization dedicated to educating Americans on the value of military service. WLF has a number of programs that help with this mission:

Operation Legacy

WLF will partner with other veterans groups to identify and send as many able bodied veterans of WWII, Korea, Vietnam and the Cold War to speak at basic training centers and boot camps across all branches of service. We will work with DOD and each branch of service so that a week before graduation of basic training, our future military members will hear stories of generations past: their sacrifice, their courage and their struggle.

To ensure that these Veterans and their message are met with the enthusiasm and respect their stories deserve, WLF will produce a modern and professional video to accompany each presentation. All military academies will also be asked to be a part of this speaking tour. We will also allow Elementary & High Schools as well as private organizations the chance to hear these Warriors of the past speak at military-themed events and holidays.

Unit History Project

WLF will work with units deployed to combat to ensure that the details of their tours are properly documented. We will coordinate with unit historians to tell the stories of deployments, battles engagements and the men and women who served. WLF will help them build online databases rich with multimedia where unit members and all who are interested can access this information. We will capture these accounts before the unit members move on and they are lost forever.

The Legacy of America's Warriors must be preserve
